

ENERGIZING OUR FUTURE: A RENEWABLE ENERGY SYMPOSIUM FOR STUDENTS

A CELF Learning with Leaders Program

What alternative energy options are viable?

Can we put an end to our carbon dependency?

Learn about the variety of methods currently available and in development from leading experts in the fields of energy development, production, financing and management. Moderated by a leading portfolio manager in the energy field, students and teachers will explore optimistic alternatives to a carbon-based future.

Speaker Panel:

Rosi Kerr, Energy Advisor, JUICE Inc.

Topic: *Alternative Energy 101*

Jon Koch, Founder and Managing Director, US Renewables Group

Topic: *Investment in our Future: the Case for Renewable Energy*

Moderator: Robert Preston, Portfolio Manager, Merrill Lynch Global Private Client Group and Board, Northeast Sustainable Energy Association
