Spring into Sustainability with CELF

CLICK HERE TO REGISTER

Join fellow K-12 educators for a series of outdoor field experiences with CELF and community partners in New York and Connecticut. Each event includes activities to spark inspiration of sustainability and place-based learning in the natural world with applications to bring back to your classroom.

4:30 PM - 6:30 PM

NY Teachers are eligible for 2-hour CTLE credits / SNACKS PROVIDED

Winter Field Experiences: Tracks & Traces

Take a short hike in the winter woods of Teatown Lake Reservation to explore and learn how to identify tracks and traces of local wildlife.

Mill River Watershed & Urban Communities

Discover ways to integrate sustainability, history, and place within the Mill River Watershed. Join us in downtown Stamford and bask in vibrant urban green space and a new Discovery Center!

Analyzing & Interpreting Scientific Data

Along the beautiful banks of the Hudson River, identify and interpret data sets. Leave with tools that can help you and your students make sense of graphs, figures, sketches, and data representation.
